

SAMUEL YNIESTA

Associate Professor, Department of Civil, Geological and Mining Engineering, Polytechnique Montréal

+1 514-340-4711 ext. 4259 | samuel.yniesta@polymtl.ca | www.samuelyniesta.com

AREAS OF EXPERTISE

Geotechnical Earthquake Engineering, Ground Response Analysis, Probabilistic Seismic Hazard Analysis, Numerical Simulations

EDUCATION

University of California, Los Angeles (UCLA) Los Angeles, CA	Ph.D. in Civil and Environmental Engineering <u>Major:</u> Geotechnical Earthquake Engineering <u>Super Minor:</u> Structural Engineering <u>Advisor:</u> Scott Brandenburg <u>Dissertation:</u> Constitutive Modeling of Peat in Dynamic Simulations	2016
	M.S. in Civil and Environmental Engineering <u>Major:</u> Geotechnical Earthquake Engineering	2012
Ecole Spéciale des Travaux Publics (ESTP) Paris, France	M.S. in Civil Engineering <u>Major:</u> Public Works	2012
Université Claude Bernard Lyon 1 – Institut Universitaire de Technologie A Villeurbanne, France	D.U.T. (Technical University Diploma) in Civil Engineering (2-year Degree) <u>Major:</u> Public Works	2009

PROFESSIONAL CERTIFICATIONS

Professional Engineer – Ordre des Ingénieurs du Québec – No. 5079221

AWARDS

Thomas A. Middlebrooks Award (2022) – Awarded by the American Society of Civil Engineers
 Shah Family Innovation Prize (2021) – Awarded by the Earthquake Engineering Research Institute
 Polytechnique's Foundation Award for New Professors (2017)

PUBLICATIONS AND PRESENTATIONS

Journal Publications (* student advised):

Razavi, K.*, & Yniesta, S. (2023). "PolySand-Wfines Model – Extended PolySand Model to Simulate the Monotonic Behaviour of Granular Materials with Different Fines Content." *Submitted to the Canadian Geotechnical Journal*

Razavi, K.*, & Yniesta, S. (2023). "PolySand Model, a Modified Cambridge Type NorSand Model to Simulate the Monotonic Behavior of Granular Materials" *Submitted to the Journal of Geotechnical and Geoenvironmental engineering*

Contreras, C.*, Yniesta, S., and Aubertin, M. (2023). "Improvement of tailings impoundment seismic and post-seismic stability using densification and waste rock inclusions." *Canadian Geotechnical Journal*. e-First <https://doi.org/10.1139/cgj-2022-0196>

Razavi, K.*, & Yniesta, S. (2023). "Implementation of a nonlinear state-dilatancy law in the NorSand Model" *Submitted to the International Journal of Geomechanics*

- Contreras, C.*, **Yniesta, S.**, Jahanbakhshzadeh, A., and Aubertin, M. (2023). "Calibration of the PM4Sand Model for Hard-Rock Mine Tailings Based on Laboratory and Field Tests." *Canadian Geotechnical Journal*. 60(7): 966-977. <https://doi.org/10.1139/cgj-2021-0257>
- Contreras, C.*, **Yniesta, S.**, and Aubertin, M. (2022). "Seismic and Post Seismic Stability of Tailings Impoundments with Upstream Dikes." *In revision for the International Journal of Geotechnical Engineering*.

STUDENTS

Current Students:

Ph.D. students:		<u>Since</u>
Mohamed Ben Romdhane	<i>Stability of retaining walls under high frequency loading</i>	01-2022
Abdelhalim Laouni	<i>Stone-columns design optimization</i>	01-2022
Simon Dufort Co-supervised with Prof. Françoise Bichai	<i>Resiliency of a water distribution network following an earthquake</i>	06-2021
Seyyed Kazem Razavi	<i>Constitutive modeling of static liquefaction of tailings</i>	09-2020

Masters students:

Arvin Yazdani	<i>Liquefaction due to mining-induced motions</i>	09-2021
---------------	---	---------

Former students

Ph.D. students:

Mohammad Zarrabi	<i>A viscoplastic constitutive model for cyclic clay behavior</i>	01-2017 to 01-2021
Ali Reza Zafarani Co-supervised with Prof. Michel Aubertin	<i>Design guidelines for the seismic stability of tailings impoundment</i> Winner of the Branko Ladanyi 2020 Competition and the best student paper award Geovirtual 2020.	01-2018 to 08-2022
Carlos Contreras Co-supervised with Prof. Michel Aubertin	<i>Seismic stability analysis of a tailings impoundment</i>	01-2018 to 05-2022

Master's students:

Simon Dufort Co-supervised with Prof. Françoise Bichai	<i>Consequences of a seismic event on a water distribution network</i>	06-2021 to 12-2022
Charles Parent-Lachance	<i>Static liquefaction of tailings impoundments</i>	05-2020 to 01-2022
Zi-Jing (Jim) Zhang	<i>Site-Specific Seismic Nonlinear Ground Analysis on Sample Soil Profiles in Eastern Canada</i>	01-2019 to 05-2021

20/10/2023

Jessica Huo Kang	<i>Impact of seismic hazard on the performance on an earth dike in Eastern North America</i>	01-2019 to 05-2021
Caroline Bessette	<i>Evaluation of existing constitutive models in nonlinear 1D effective stress ground response analysis</i>	05-2018 to 01-2020
Mallak Janati Idrissi	<i>Integration of viscoplastic effects in nonlinear ground response analysis</i>	09-2016 to 04-2019
Undergraduate students:		
Simon Dufort	<i>Consequences of a seismic event on a water distribution network</i>	06-2020 to 09-2020
Chaymaà Kamal Alaoui	<i>Ground response analysis at the Delaney Park downhole array</i>	01-2019 to 06-2019
Filip Djogo	<i>Seismic stability of four clayey slopes in Québec</i>	09-2018 to 06-2019
Felipe Gomes Mestriner	<i>Seismic slope stability in sensitive clays</i>	09-2017 to 06-2018
Jérémie Vuong	<i>Effect of temperature on soil's dynamic properties</i>	06-2017 to 06-2018
Jorge Ramos	<i>Site period lengthening in strong events</i>	08-2017 to 12- 2017
Ibrahima Sylla	<i>Literature review of seismic slope stability in sensitive clays</i>	06-2017 to 08-2017

RESEARCH EXPERIENCE

Assistant Professor, Polytechnique Montréal, Montréal, QC, Canada **May 2016 – May 2022**

Associate Professor, Polytechnique Montréal, Montréal, QC, Canada **June 2022- Present**

Current Research Projects (non-exhaustive):

May 2016 - Present

- Study of seismically induced landslides in sensitive clay
- Seismic and static stability of tailings impoundments
- Stone-columns design optimization
- Mining-induced seismicity
- Consequences of an earthquake on a water distribution network

Funding:

- Funding program for new professors at Polytechnique Montréal (PIED) - \$50,000 - Oct. 2016/ Oct. 2018 - PI
- Grant of Polytechnique's Foundation for new professors – \$15,000 - Oct. 2017/ Oct. 2018- PI
- Natural Sciences and Engineering Research Council of Canada (NSERC) Discovery – \$100,000 - April 2017/April 2022 - PI
- Fonds de Recherche du Québec Nature et Technologies (FRQNT) young researchers - \$86,000 – April 2018/April 2020 - PI
- Engage grant in collaboration with WSP - \$25,000 – May to December 2019 - PI
- Mitacs Acceleration in collaboration with Ménard Canada - \$125,000 – September 2022 to August 2025 - *Stone-columns design optimization* - PI
- FRQNT Programme de recherche en partenariat sur le développement durable du secteur minier - \$313,690 – May 2020 to April 2024 – New approaches to evaluate and reduce the geotechnical risks of active mines tailings stored at the surface - PI
- FRQNT Programme de recherche en partenariat sur le développement durable du secteur minier - \$ 483,000 - May 2020 to April 2024 – Development of hydrogeotechnical and operational criteria to improve the long term stability of waste rock disposal piles. – co-PI
- NSERC Alliance Grants - CNSC - Small Modular Reactors - March 2023 to May 2026 - \$360,000 - Geotechnical and Structural Paradigms for the Design, Implementation, and Operation of Small Modular Reactors in Canada's North – co-PI

Graduate Student Researcher, University of California Los Angeles

Sept. 2012 - March 2016

PI: Professeur Scott Brandenburg

Project Funded by NEESR: "Levees and Earthquakes: Averting an Impending Disaster"

NSF# 1208170 (\$651,000)

OTHER WORK (SELECTED)

Teaching and Mentoring:

Co-instructor of a 3h-course on the design of tailings impoundments – 2021 Symposium on mines and environment (CIM)

June 17th 2021

**Polytechnique Montréal - Department of Civil, Geological and Mining Engineering
Assistant Professor**

Since May 2016

- CIV3415 – Soil mechanics - 3rd year
- CIV3420 – Foundation engineering - 3rd year
- CIV6405 – Geotechnical engineering (co-instructor) – graduate level
- CIV6414 – Geotechnical earthquake engineering (created the course) :
 - Liquefaction
 - Cyclic Softening
 - Seismic Hazard Analysis
 - Site Response Analysis

**University of California, Los Angeles – Department of Civil and Environmental Engineering
Teaching Assistant (CEE123 Advanced Geotechnical Design)**

April. 2015 - June 2015

Engineering Consulting (non-exhaustive):

BBA

July 2023 – Present

- Training sessions in Geotechnical Earthquake Engineering

ENGLOBE

June 2021 – March 2022

- External Expert for Nonlinear Ground Response Analysis

FNX-Innov

March 2021 – Present

- External Expert for Nonlinear Ground Response Analysis

ABS

August 2021 – Present

- External Expert for Nonlinear Ground Response Analysis

Ménard Canada

June 2021 – Present

- Training sessions in Geotechnical Earthquake Engineering on:
 - Liquefaction
 - Ground Response Analysis (using Deepsoil)
 - 2D and 3D Site Response Analysis

Génitique

Feb 2018 – Apr 2018

- Static and seismic stability analysis of a water-retaining dyke

SERVICE

**Co-author of the Geotechnical Earthquake Engineering chapter of the Canadian
Foundation Engineering Manual for the following sections**

September 2019 - Present

- Elementary Seismology

- Seismic Hazard
- Site Response Analysis
- Liquefaction

Member of the Academic Committee	2022 – Present
Member of the Fraud Committee	2018 - Present
In charge of advising foreign exchange students within the department of Civil Engineering	September 2018 – 2023
Representative of the department of Civil, Geological and Mining Engineering, at the professors' association of Polytechnique board meeting (APEP)	May 2017 – 2023
Coordination of the Hiring Process of the Civil, Geological and Mining Department Chair	2021, 2022
Participation to the COCEP meetings, the Industry Advisory Board of the department	2019 - 2022
Member of the committee in charge of reviewing the programs within the department of Civil Engineering	2019 - 2022
Selection committee for the Quebec Infrastructures Company (SQI) for engineering professional services contracts in geotechnical engineering	2020
Judge for the annual student competition of the Canadian Geotechnical Society	2020
Member of the jury for the ACFAS competition – Natural Resources	2019
Member of the reconnaissance team of the Canadian Association of Earthquake Engineering following the September 19th earthquake in central Mexico.	October 2017
Scholarly review for more than 10 conferences and journals and for multiple grant application	Apr. 2013 - Present

AFFILIATIONS

Member of the multi-institutional strategic research cluster dedicated to the safety of civil engineering structures subjected to extreme effects induced by natural hazards – CEISCE (since 2018)
 Geotechnical Extreme Events Reconnaissance association – GEER (since 2017)
 Canadian Geotechnical Society – CGS (since 2016)
 Canadian Association of Earthquake Engineering - CAEE (since 2017)
 Earthquake Engineering Research Institute - EERI (since 2015)
 American Society of Civil Engineers – ASCE (since 2015)

LANGUAGES

English – Fluent
 French – Native
 Italian – Proficiency in reading and writing
